BEGINNING OF END FOR KAISER AND "INVINCIBLE" ARMY

Hundreds See City Gas Well Ignited and Flame Belch Forth With Force

All Forces on German Soil Today, For the First Time Since the Outbreak of Hostilities

At Three Points in the Area of Battle Conditions Show a Reversal of the Roles of the Contending Armies—Germans Fortify their Retreat with Trenches—Sharp Impetus to Naval Activity in the Far East—Russian Forces Now Less than 200 Miles from Berlin.

London, Nov. 9, 1.05 p.m.—At three points in the area of hostilities—in Silesia, in east Prussia, and in Alsace—forces of the allies were on German soil today and for the first time since the outbreak of hostilities conditions seemed to perage, in the opinion of British military observers, a reversal of the roles of the contending armies. Up to the present time, Germany has been fighting, generally speaking, in the territory of her enemies, but now she would appear to be more or less seriously menaced on the east by the victorious armies of Grand Duke Nicholas, the Russian commander-in-chief of the field, the advance guards of which are less than 200 miles from Berlin. It is true that there was a brief Russian invasion in east Prussia during the early stages of the war, while the French have for a long time held their position in Alsace, but the latest development in the eastern theater, if the interpretation placed on it in London is not all wrong, is the most important of the campaign. It is merely speculation to say that Germany may be forced forthwith to retire from Belgium or to cease her offensive in this area. In certain areas of France and Belgium the allies are taking a vigorous offensive, but it is too early yet to predict that Germany will not renew her smashing tactics in an effort to break through the line and there will not be such hard fighting around Ypres.

In any event the German retirement from Belgium probably would be very slow, the forces of Emperor Wilhelm have made the country behind their battle line one vast fortification with trenches even more carefully prepared than those they are still holding in France.

With Tsing Tau under Japanese administration and the release for other service of the Japanese and British vessels used in the capture of this German stronghold, there should be a sharp impetus to naval activity in the far east as these vessels may now center their attention on the roving German cruisers which have been so successful in their operations against British shipping.

Official Belgian Statement Says Advantage to Allies
Havre, Nov. 9.—(via Paris).—The Belgian government issues the following: "The situation at Nieupoort is stationary with slight advantage to us. On the remainder of the front almost complete quiet prevails."

"The enemy still occupies on the right bank of the Yser several points of support which have been cannonaded by our artillery. Dixmude has been bombarded by the enemy."

"All German Attacks Repulsed," Says Paris.
Paris, Nov. 9.—The official announcement given but by the French war office this afternoon says that the German offensive has been renewed at Dixmude and in the region of Ypres and that to the southeast of Ypres all the German attacks have been repulsed.

TRADE OF AUSTRIA AND HUNGARY DEMORALIZED TO NEARLY NOTHING
Vienna, (via Paris) Nov. 9.—How severely the trade of Austria has been affected by the war is revealed in the official report of the Austrian ministry of commerce, a copy of which has reached here via Vienna. According to this document, Austria's imports in the first nine months of 1914 amounted to \$22,200,000, as compared to \$22,000,000 in September, 1913. The decrease in exports was much greater. They amounted in September of this year to only \$12,200,000, hardly one quarter of the total reached in September, 1913. The greatest decrease in the export list were in raw materials, such as wool, cotton, clothing, cotton and woolen goods and glassware. In imports the decrease was most marked in raw materials, coal, iron, cotton, wool, yarns, copper and machinery. During the first nine months of 1914, imports decreased \$21,000,000 and exports \$60,000,000.

In the domestic trade, the imports from Hungary in September were only two-thirds of the exports to Hungary. The exports to Hungary were only one-half those of September, 1913.

BERLIN BELIEVES RUSSIANS WILL BE DEFEATED IN EAST

Reported Germany and Austria-Hungary Have Massed 3,000,000 There
London, Nov. 9.—"It is asserted in Berlin that Germany and Austria-Hungary now have concentrated about 3,000,000 soldiers on the line from Thorn to Cramme and this is considered sufficient to crush the Russian forces," says a despatch from Copenhagen to the Times. The message reads: "Military authorities declare that the thought of the coming battle is not in doubt and that the Russian army will be completely destroyed."

"They explain that it is necessary to show the Russians to advance to the frontier in order to prevent them from taking a road retreat after their defeat. The present retirement of the Germans is necessary, they say, in order to have the railways immediately behind the army for the approaching battle."

"FROSTY" MARTIN ADVISES CITY TO DRILL SOME MORE

Should Have Four Other Wells Down by April or June at Latest, Next Year.

LAY PIPE IN SUMMER; BURN GAS IN THE FALL

Head of Company Struck With Peculiar Advantages of Edmonton.

W. R. Martin, better known as "Frosty" Martin, president of the International Supply company, of Medicine Hat, came in on the special train Saturday night and is at the King Edward hotel.

In speaking of Edmonton and the gas situation, Mr. Martin said yesterday that there would be no city on earth in as favorable a position, with all its utilities municipally owned.

"Just think of it. The rich country you have on every side for hundreds of miles, railways radiating out in every direction like the spokes of a wheel, and now, just at the right time, you find perhaps the greatest gas field in the world."

"I don't know why some people get the idea into their heads that gas is a reliable source of power, light or heat. A study of the situation will show that it is absolutely more reliable than either coal or electricity, for it is not subject to strikes, railway tie-ups or anything like that at all, and we can build pipe lines so that it is virtually not subject even to weather conditions."

Easy on the Sanitar
"And then, of course, it is so convenient. With a thermostat one can turn on the furnace heat in the fall and never look at it again till spring, unless one wants to take a trip to the south."

The city of Edmonton should have no time in drilling about four more wells in the district and if gas is found, even only 2,000,000 feet a day, instead of 5,000,000, as the present well, they would have an ample supply to lay a pipe line to the city. If they could build them now, and a week more may be worth a month later on, and have them down about April or not later than June they could have the pipe line laid to the city in the summer and there would be no reason why everybody should not be burning gas next fall and winter."

Mr. Martin's company has drilled 48 different wells in this province and has a plant in Medicine Hat, where all the tools and machinery is made, employing 60 men, which has run day and night for the last two years with a lot of it. This company drilled at how Island, the source of Calgary's gas, and at various other places in the south.

To Install Plant Here
"If things of this kind come up as now have no reason to doubt they will," said Mr. Martin. There will be more drilling for oil and gas in these parts than in the south in the next few years. The shale has been found to be the best and the most abundant here to have the tools and supplies sent here to have them made. They will have to put in another plant, where all the present one next year."

Had it not been for Mr. Martin, his

Must Drill More Wells at Once, Says McNamara, Who Endorses Gas Scheme as Outlined by Capital

Only One Word on Lips of Every Man Taking Trip—"Go Ahead with Work and Do It Quick."—Even Most Skeptical Doubting Thomases Enthused at Sight and Mighty Roar of Flame.—Viking People Are Alive to Situation.—Opinions of Many Prominent Business Men and Others All Have Same Tone.

On Saturday about 6 p.m. with 800 eager, smiling eyes watching and 400 lusty throats cheering, there was turned on and ignited a flow of gas at the newly discovered Viking well, which roared and threw up a blaze around—the same force which will light Jasper avenue, making night as day and make the fine, wide, historic thoroughfare a truly great white way, turn the wheels of a thousand industries, heat and light the homes of the great city of the west and stand as a lasting monument to the enterprise, faith and public-spiritedness of the Edmonton Industrial association and those who put their time and money into the proposition, without hope of personal gain, in a supposedly lean year, but one which was thus turned into a fat one, unadvisedly to W. J. McNamara, Edmonton's Gas Mayor, and W. J. Magrath, the president of the association.

Many have been skeptics. GOING BUT COMING BACK THEY WERE OF ONE MIND

It was a typical "Misconception" crowd that made the trip from the city to the well over the special Grand Trunk Pacific train Saturday—men who had seen real estate, oil and mining booms come and go, but reasonable men who, once shown, were enthusiastic. There were about 200 of them, despite the heavy day, and such counter attractions as the Varsity-College football game and "The G. O. M. Heart," College professors, ex-mayors, acting-mayors, and would-be-mayors, aldermen, ministers, members of parliament, just plain gas men, newspaper men and all kinds of live wire men filled up the three cars which were hunched in the G. T. P. locomotive. There may have been some who were skeptical when they left and even up till the minute they landed at the well, but if there were

any such on the way home they must have hidden their lights under bushels which the Viking gas did not penetrate; for after they heard the roar and saw the fire there was but one word on all lips—"go ahead with the work and do it now."

VIKING TOWN AS RED HOT AS GAS WHICH BLED HOT BRILLIANTLY FROM WELL

If there is any livelier, hotter, more progressive, more charming, more western town than Viking anywhere on the map, the people who took in this trip want to be shown it. Viking claims to have the finest land, the best business men, the cleanest town and the biggest gas resources in Alberta, and that's saying a great deal, but not more than those who visited the town Saturday will vouch for. They even have sausage known as "Viking sausage" which the G. T. P. uses in its diners, and which no other district north, south, east or west of Winnipeg can produce. The whole town and the farmers for miles around met the Edmontonians at the depot with a brass band, drove them out the 14 miles to the well in autos, buggies, wagons, democrats and all kinds of conveyances, fed them and then took them back again, after the big attraction had been seen, in lots of time to catch the train mening back. Every man in the crowd, no doubt, came home with a little warm place stored away in his heart for this town.

NO DOUBT ABOUT GAS—IT SHOOT UP TO TUNE OF 5,000,000 FEET DAILY

The gas itself, of course, was the big talk of the day and night. Gas, gas and nothing else, but Viking gas was everybody's topic. If they didn't talk about it, that gas simply stared them in the face till they got so used to it that they didn't notice it. The darkness, for it penetrates darkness like a British shell going through German lines, was a thing to be proud of. It was coming up from 2,600 feet below the earth's surface like bubbling water, and it was there so much about. The only difference is that science handles the gas for useful purposes, while the bullies of "Prosty" Martin, the head driller, who has drilled 48 wells in this province, says there is 5,000,000 cubic feet of it at 450 pounds pressure every 24 hours.

The force is great enough to pipe it to Edmonton and have enough left to distribute to all the houses, stores, factories, offices and everything else in the city. How it will be distributed may be a contentious point, but that it is there in large quantities is the unanimous opinion, based on eye-witness evidence.

WILL BRING CHILDREN WITH HANDS CUT OFF TO SHOW AMERICA

London, Ont., Nov. 9.—On hearing the Germans in Europe plan to send out professors to place their cause before Americans, Joseph Lawrence of this city today offered to head a fund with \$1,000 to send out 10 Belgian children with their hands cut off to be exhibited. Others have also offered to contribute.

GETTING THE COLONEL OUT OF IT—ALIVE!

Severely wounded in the head and blinded by his own blood, a Belgian colonel is here shown being led back from the trenches before Antwerp by two sergeants after the Germans captured the position.

(Continued on Page Two)

Must Drill More Wells at Once, Says McNamara, Who Endorses Scheme as Outlined by Capital

(Continued from Page One)

BEST PART OF PICTURE WILL BE LEFT OUT BUT HERE'S HOW IT HAPPENED

Such a trip, however, hardly ever is made without its little mishaps. This time the only mishap was that the official moving picture men, among whom were such noted impressionists as J. S. Haza, of the Empire theater, where the movie will be shown; P. C. McDermid, the photo-engraver; Fred Rogers, movie operator; and a staff specially imported from the Mexican war zone for the occasion. After taking some views of the crowd getting off the train, the Viking band playing and the procession starting on its way to the well, the movie men got into a fix and attempted to cut-thank all the other cavalry. They did so, but not before upsetting, landing in the fertile soil of the Viking drill and gathering some of the valuable real estate in their clothes. After they had laid along the landscape for a few hundred feet got up and were well ahead of the parade and ready to take pictures of the gas experts who witnessed the demonstration, I would say that this is an inestimable find for Edmonton.

of the gas experts who witnessed the demonstration, I would say that this is an inestimable find for Edmonton.

INEVITABLE CARNIVAL OF ORATORY TAKES PLACE IN FORTY-MILE-AN-HOUR CAR

So much gas was inhaled into the system of those fortunate enough to be present that it had to finally find an outlet in floods of oratorical eloquence and after-dinner wit by a few of the city's heavy-weight linguists. This operation was started on the way back in the last car by W. A. Milne whose smile has not come off since Wednesday morning, when he nominated Rev. Dr. W. L. Armstrong for the position of chairman. The choice was made unceremoniously without further discussion, as the train was only a few miles from the well at the rate of 40 miles an hour, though the passengers may not have thought it more than 20 on the smooth road. Dr. Armstrong made an appropriate opening

address, telling his hearers that everyone in the car was well listening to, although there were many who on ordinary occasions might be especially so.

ALDERMAN SMITH GETS ON BAND WAGON PRAISES EDMONTON'S GAS MAYOR

Alderman H. R. Smith, who is holding the position of acting mayor since the place by the terrific gas flow, was one of the first to talk. He evinced a tendency to get on the band-wagon of municipal gas by expressing his faith in the flow, his desire to see the city take steps at once to develop it and an expression of appreciation of the efforts of Mr. McNamara to start drilling. At the mention of Mr. McNamara's name there were cheers and Dr. Armstrong struck a popular chord when he called on him.

M'NAMARA IS CHEERED AS HE SPEAKS IN FAVOR OF CAPITAL'S GAS SCHEME

Edmonton's gas mayor did not make much but struck right out and stated that he would advise the city council to take action along the lines advocated in the Capital's editorial Friday and, for half a mile on the tax rate, give free gas, what no other place on earth could. Unfortunately, he stated he would not be able to do anything official himself (of "but you will tell me") but he strongly advised those who would do so. But, whether they were in favor of free gas or not, they should all get together and develop the field for the good of Edmonton. They should at the very earliest possible moment drill at least two other wells, one east and one west of the present one and quit petty politics in the city hall. He sat down amid loud applause.

ARE ALL OF ONE ACCORD MUST QUIT PETTY POLITICS AND GET BUSY WITH DRILLS

Dr. Torg of the university, was in accord with Mr. McNamara with regard to quitting petty politics, which he thought had been the cause of all its ills and fevers at the city hall. Dr. Allen, professor of geology at the university, spoke on the editorial side of the question and congratulated the industrial association and the city on their success. James Ramsey welcomed into the fold of optimism the doubting Thomases who had been skeptical, if not absolutely pessimistic, as to the practical discovery of gas at Viking. Mr. Ramsey had been one of the heaviest contributors to the association's gas fund and knew whereof he spoke. Eugene Coste, one of the owners of the well from which Calgary gets its gas, spoke briefly. Dr. Armstrong getting in his little joke about Calgary getting their gas "at Coste," but the price not staying there. Alderman Driscoll, W. T. Henry and others also three forth bubbles of cheer along the same line, by which time the train had reached the city—about 10:15 p.m.

On the return trip all of the 173 representative citizens who had witnessed the demonstration at the well were asked to record their impressions in writing. Nearly all of them did so at once and the rest will mail a statement to Secretary Milne of the association. From among those handed in, the following extracts have been called:

More than encouraging for further development. Hats off to the Edmonton Industrial association—John H. McKellan.

It is a wonderful well and will do more real good for Edmonton than we had struck oil—D. V. Dan Sikan.

There appears to be all kinds of pressure and of a fine quality of gas—James E. Green, Massey-Harris company.

CANADIANS WERE WARMLY WELCOMED BY MEN AND WOMEN OF OLD BRITAIN

Bordeaux, Nov. 8.—(Via Paris).—The military attaches of neutral countries have been authorized by the French government to proceed to the theater of operations to visit particularly the battle fields on the River Marne. The attaches will leave next Tuesday or Wednesday from Fontainebleau and they will be gone some 15 or 20 days.

The following letter from her husband has been received by Mrs. Harcourt, wife of Private Harcourt, 1st Battalion, 10th Canadian Infantry.

"I was greatly amazed to see such a flow of British soldiers at least 100,000 men in the air—J. H. Garpey.

I am convinced that the Viking well is a real gas well and that it will supply the gas needs of the province.

The demonstration witnessed tonight settles beyond all doubt the permanency of the gas strike at Viking, and an abundant supply for Northern Alberta—J. A. Macgregor, Supt. C.P.R.

No newspaper description or verbal account would convey to me the favorable impression I gained from my visit to the well today. It was a most interesting and profitable day.

From actual observation and from opinions expressed by those who know I am satisfied that the fuel, light and power problem of this province is solved—S. A. Gordon, Manager, Massey-Harris Company.

It is the best and most wonderful thing that has ever happened to Edmonton—H. R. Drew.

Splendid, offering tremendous possibilities—George T. E. Avenell, Northern Hardware company.

The promoters are to be congratulated on their success—J. A. Dick, city power plant.

I have been nine years a member of the city council of Medicine Hat, and two years mayor and I consider the industrial progress of that city is due entirely to natural gas. This strike at Viking is the best thing that could have happened to Edmonton. The well is a large one, and the open flow under pressure would indicate a large field. The addition of a big gas field to the forefront of western cities—Fred G. Foster.

AT ONCE! PAPE'S DIAPEPSIN STOPS INDIGESTION, GAS, SOUR STOMACH

Don't suffer! Here's the quick and surest stomach relief known.

Time it! In a few minutes all stomach distress goes. No indigestion, heartburn, sourness or belching of gas, acid, or eruptions of undigested food, dizziness, bloating, flat breath or headache.

PaPe's Diapsin is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach doctor in the whole world, and besides, it is harmless.

Millions of men and women now eat their favorite foods without fear—they know it is needless to have a stomach upset.

Get a large fifty-cent case of PaPe's Diapsin from any drug store and put your stomach right. Stop being miserable—life is too short—not to have fun; so make your year agreeable. Eat what you like and digest it; enjoy it without fear of rebellion in the stomach.

EDMONTON DAILY CAPITAL

OFFICE OF PUBLICATION—DAILY CAPITAL BLDG., 623-625 SECOND ST.

MAKE EDMONTON GREAT OR COMMIT CRIME AGAINST IT?

That the gas field tapped by the Viking well is one of such tremendous volume and pressure as to change the whole outlook for this city and to place Edmonton on an entirely new plane of advantage in seeking industrial expansion must have been apparent to everyone of the 175 Edmontonians who visited the well and witnessed the demonstration of Saturday.

Beyond the shadow of doubt Edmonton has gas—millions and billions of it—awaiting only the intelligent action of the city to become the most useful natural resource thus far brought under contribution to Edmonton.

Just how necessary it is that the plan to be followed in the development of the gas shall be one which will permit the use of gas by the greatest number of people at the lowest possible price may be gathered from the fact that Calgary, having at one time had almost exactly the strategic advantage in the handling of its gas that Edmonton now enjoys, surrendered that advantage for the purpose of making a deal with a private corporation to deliver gas at a price (15c and 30c cents respectively for industrial and domestic gas) which it is now found holds no great advantage, so far as economy is concerned, over coal, the effect being to rob Calgary of the advantage which should have accrued to that city by virtue of its proximity to one of the greatest gas fields in the world.

That Edmonton came very close to sacrificing the whole advantage which it is now in a position to enjoy will be well-remembered by all who have followed the gas business through the last year or two of municipal history. It will be remembered by all that there was before the city a project to have the city tie up with a certain local company for a supply of gas, to be delivered to a city distribution system at the city limits at a price of 15 cents per thousand feet, for 10 million feet a day. This price, after distribution costs had been added, we now know through Calgary's experience, would have been so high as to have made gas a comparative luxury, for the enjoyment of only a few of the more well-to-do and certainly not a commodity to have placed Edmonton in a position of predominance in industrial inducements.

Just a glance at that particular deal shows what the city escaped. Upon the terms of the deal exploration might, and no doubt would, have been undertaken by the company just as it has subsequently been undertaken by the Industrial association. To see what the position of the company would have been we have but to imagine the present find in the hands of a company possessed of the agreement to sell to the city 10 million feet at 15 cents. Multiplying the \$1500 a day which would have thus accrued to the company in 35 days, a matter of \$525,000. To deduct from this there would be \$60,000 a year interest on the pipe line and depreciation, drilling and general expenses which by no calculation could have been brought up to \$147,500, leaving an indicated profit of \$400,000 a year to the stockholders out of an agreement which it has now been shown would have cost only \$23,400—the cost of drilling one well on a report already secured by the city—to demonstrate the gas in sufficient quantities to have made the flotation of the pipe line a mere pastime.

Had the arrangement which the city entered into with the Industrial association been instead a company arrangement the same as that proposed in favor of the Pelican, it will be seen at once that Mayor McNamara, by virtue of his \$5000 subscription in cash and notes would have become possessed of a one-fifth interest in the well and therefore in the agreement which would show the aforesaid \$400,000 indicated profit. In other words the \$5000 put up by Mayor McNamara would—upon a company arrangement on the Pelican terms—given him proprietorship of an \$80,000 profit every year for 25 years, the life of the agreement. On the same calculation the money which Alderman East subscribed, and as a consequence of which he was also disqualified, would have entitled him to \$2500 a year profit. Every \$1.00 share of the Industrial Drilling company would now be worth \$100.00 at the very least calculations and the company would have in the agreement an indicated profit guaranteeing something better than 15% on even that valuation.

Quite evidently there are several things about this gas business which make it highly injudicious, to say the least, for the city to enter into any arrangement with any private interest. Some of these things are much plainer now than a year ago. And also quite as evidently the city must be prepared to go into the gas business with a complete recognition that the gas is a natural resource, placed there for the use and enjoyment of all, and that upon these terms and those only must it be developed; upon the terms that the gas shall be made public, just as the libraries and schools are public.

To do this will make Edmonton the greatest city in Canada. To fail to do it will be to commit a crime against the prosperity of Edmonton.

CONSERVING FOURTEEN MILLION A YEAR

Let us get a notion of what this industrial fabric is that Canadian citizens are asked to maintain by taking part in the "Made-in-Canada" movement. In a matter of cold cash, it is an investment of \$1,500,000,000 in factories and equipment. It is an annual output of \$1,400,000,000. It is a yearly wages-and-salary list of \$288,000,000.

These are figures that entitle Canada to be considered as a great industrial nation in the making. They are figures that if used have been made the subject of great orations. The sum total of Canada's share in the world's work represented by smokestacks and box-cars and payrolls is a great fabric of business that has become a source of pride to a young nation. We boast of our railway systems, our empire of farm lands, our free institutions, our worthy pioneers and our determined, clean-headed people. Let us also boast of the 23,000 factories that have become one of the bulwarks of the nation.

To help maintain this national asset is the privilege as well as to the advantage of every man and woman in Canada. This industrial fabric must not be endangered by war. It must be conserved, and in conserving it, we serve our own interests

LARGER VOLUME OF BUSINESS THAN EVER IN MUNDARE

Several Carloads Live Stock Weekly Shipped to Edmonton—News of Town.

Mundare, Alta., Nov. 8.—The town council has procured two tower corner lamps of 2,000 candle power each for use on Main street.

Donald McAllum, Jr., has reopened a butcher shop lately vacated.

A man was arrested this week in Mundare for carrying a dangerous weapon.

T. Tugendhult, proprietor of the hotel, has purchased automobile. Three auto-loads from this town attended the manure pile at Chipman.

W. Hamilton of Mundare attended as Franz Joseph, emperor of Austria, carried off the first prize for best dressed gentleman.

Henric Tugendhult spent the week-end visiting friends in Edmonton.

Reverend McPherson from Sydney, N.S., has arrived and begun attending to his pastoral duties here. He will reside with his family in Kyle.

Jack McAllister spent the week-end visiting at his parental home here.

A great volume of business is being done in Mundare. More grain and livestock than ever before are being shipped from here, J. S. McAllum himself shipping several carloads weekly to the Swift Canadian company.

A twenty per cent increase is expected next year.

Professor Onorice Gesteerich, of Lemberg, Austria, held a meeting recently in the country near Mundare that was attended by a great throng of people. He bore a message of goodwill from friends in Austria and complimented loyalty to their adopted country.

Mr. Gesteerich is a quite a linguist, speaking English, French, German, Italian and Russian.

J. S. McAllum, M.P.P., addressed the gathering laying stress chiefly on patriotism.

Messrs. Sheremata and Cherkov of Edmonton also gave addresses. At the close a liberal collection was taken in aid of orphans and widows in the old land.

A photo of the gathering was taken in which J. S. McAllum is the bearer of the Union Jack and A. S. Shandro, M.P.P., that of British ally, Russia.

THIS YEAR'S AMERICAN CORN CROP IS PERHAPS MOST VALUABLE GROWN

Washington, Nov. 8.—This year's corn crop is perhaps the most valuable ever grown, owing to its increased price on account of the European war. The department of agriculture announced today in its preliminary estimate, that the crop would amount to 2,705,692,000 bushels and that on Nov. 1 farmers were being paid 68.7 cents a bushel. The value of the crop, therefore, based on November 1 figures is \$1,854,672,240.

Dominion Trust Liquidation

Vancouver, Nov. 8.—Argument opened this morning before Chief Justice Hunter in the supreme court over the appointment of the liquidator of the Dominion Trust company. There are three applications, one from a large creditor, another from a depositor who has already secured the provisional appointment of C. R. Drayton, and the third from the directors and shareholders, who are recommending a private winding up and it is said, suggest the Northern Trust company of Winnipeg. President H. J. Tilly, of the Northern Trust, is now here.

British War Relief Association

New York, Nov. 8.—Announcement was made here today of the organization of a British war relief association to collect a fund to provide the expenses of maintaining an ambulance corps in the war and to provide and maintain nurses at the front. It is also intended to provide relief for British residents in distress in New York city.

WAS SO BAD
COULD NOT SWEEP THE FLOOR.

For backache, lame or weak back, one of the commonest and most distressing symptoms of kidney inaction, there is no remedy so equal Doan's Kidney Pills for taking out the stitches, twinges and twinges, limbering up the stiff back and giving perfect relief and comfort to all poor, suffering women who suffer so much from a weak lame back.

Mrs. Blackburn, R.R. No. 1, Fishburn, Alta., writes: "I take pleasure in writing you stating the benefit I have received by using Doan's Kidney Pills. About three years ago I was terribly afflicted with lame back and was so bad I could not even sweep my floor. I was advised to try your kidney pills. Before I had used one box there was a great improvement, at my back was much better. However, I kept on taking them until my back was completely cured. I highly recommend these pills for lame back."

Doan's Kidney Pills—50c per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

GLASS OF SALTS CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots to water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the bladder. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal action. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so you can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salt; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys, to neutralize the acids in uric acid, to break a source of irritation, thus ending bladder troubles.

Jad Salt is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

PREACHERS ADVANCE ARGUMENTS IN FAVOR OF PROHIBITION HERE

"No more damnable insult to our citizenship has even been made than to say that the sustaining of the revenue justifies the continued existence of the liquor traffic."

Such were the words of Rev. G. D. Armstrong, of Wesleyan Methodist church, in speaking upon the temperance question, Sunday night. Rev. Armstrong spoke along the lines of temperance at both Sunday services and criticized the members of both sides of the government for not taking a stand at the recent session of the legislature. He accused the members of the house of keeping their ears to the ground to hear public opinion instead of being leaders of public opinion.

Others in the city churches also dealt upon the temperance question yesterday.

Mr. Powell, in the course of his remarks, claimed that the province would effect a yearly saving of four and a half million dollars, if it at present spent over the bars and would save an equal amount as a cost of dealing with the products of the traffic if prohibition were installed in this province. Mr. Powell stated that hotel accommodation would not be interfered with if the hotels did not have a bar in connection. He claimed, was a regular argument advanced by the liquor forces.

Mr. Powell cited the case of Alaska in the United States where 85 per cent. of the hotels were without bars, and so no bar was ever in connection condition could not exist in Alberta. The speaker also estimated that 274 lives would be saved every year in Alberta if the bar were abolished.

Rev. Thos. Powell, of Grace Methodist church, addressed a large audience Sunday night on the subject "What Prohibition Will mean for Alberta."

Other pastors in city churches also dealt upon the temperance question yesterday.

CANADA'S CONTRIBUTION TO THE EMPIRE WILL BE SHOWN AT THE EMPIRE.

The lieutenant-governor and party and the officers and men of the various regiments which have their headquarters in Edmonton will attend the Empire Theater Tuesday night (military night) to witness "Canada's Contribution to the Empire," the pictures of mobilization scenes throughout the dominion and at Valcartier camp. There is 5,000 feet of film and, in addition to the general interest, and the pictures will no doubt be particularly entertaining to the soldier boys of Edmonton, as they show how the boys of other cities prepared to leave for the front. These pictures are being exhibited today and tomorrow.

MOUNTED POLICE ARREST AN ALLEGED GERMAN SPY

The Pas, Man., Nov. 8.—P. G. W. Hoffman, a gun captain in the German naval reserves, was taken into custody by the Mounted Police here and is detained at the barracks as a prisoner of war. Hoffman, who came from Prince Albert, had been acting as an orderly at The Pas Hospital. He admitted to the police that he had been in correspondence with German officers desecrating this section of Canada.

Matron Burned to Death.

Alliance, Ohio, Nov. 8.—Miss Lillian Burdett, matron of the farm cottage of the Fairmont Children's home near here, was burned to death today in a fire which destroyed the cottage, with a loss of \$10,000. Twenty boy inmates of the home worked heroically to save Miss Burdett but were driven back by the flames.

\$800,000 Goes to Ottawa.

New York, Nov. 8.—Payment of another large instalment of New York City's foreign obligations in connection with the recent six-per-cent note issue was made today when approximately \$800,000 gold was exported to Ottawa to be placed to the credit of the Bank of England.

The Boys of Alberta Are Now Likely Near the Fighting Line

They will soon be in the thick of it and will give such a good account of themselves that every Albertan and every Canadian should watch them as closely as possible.

They are making history this minute. Any day the crucial battle of the greatest war of all time may be decided.

The easiest way to have a comprehensive idea of what is going on, besides reading the news despatches, is by the Daily Capital's war atlas, which has maps of all the countries concerned and of the districts where the battles are now going on, besides a veritable mine of information and pictures of the great holocaust, including the fleets and airships of the powers.

The subscription price of the Daily Capital, payable in advance, to city subscribers is \$2.00 for six months or \$4.00 a year delivered at your door; to country subscribers by mail \$1.50 for six months or \$3.00 per year.

For every six-months subscription received while the supply of atlases lasts we will give one atlas free.

One who is now a subscriber may get one of these atlases by forwarding the price for a renewal for six months after the date his present subscription is paid to.

Better still, if a subscriber whose subscription is paid induces a friend to subscribe for six months to the Daily Capital we will forward each an atlas free.

USE THE COUPON.

LISTERINE

Use it every day

WASH the mouth thoroughly after brushing the teeth. Use a SAFE mouth-wash—Listerine—an agreeable antiseptic solution of high merit.

Listerine cleanses and purifies, and when used consistently keeps the mouth and teeth in healthy condition. It may be freely used with most beneficial results.

All Druggists Sell Listerine.

Lambert Pharmaceutical Co., Toronto, Ont.

WHY SOME BUSINESS MEN DON'T ADVERTISE

(From Beck's Weekly, Montreal.)

"The weather is unreasonable."
"We're doing no business because we couldn't take care of any more."
"Our advertising appropriation is exhausted."

"We haven't made our advertising appropriation yet."
"We don't like the articles your paper prints."
"We advertise only in papers run by red-haired men with pink eye-lashes."
"I'd come in a minute if you had hair."

So-and-so in your column?"
"We'd never advertise in any medium that accepts So-and-so's advertisement."
"We don't like what you say about the suffragettes. You know they're a crazy bunch, so why do you encourage them?"
"You 'know' too hard."
"Why don't you get after the crooks harder, then we'd advertise."
"It's too hot."
"It's too cold."
"It's too dry."
"It's too wet."

JIM CORBETT OPENS AT PANTAGES TODAY

The headliner for what promises to be a splendid all-around bill at Pantages this week is James J. Corbett, the former pugilistic star and ex-heavyweight champion, is known in every part of the civilized world. He is clever, has a pleasing personality, and is one of the few public characters that went on the stage and stayed there by merit alone. He will be seen in humorous stories of his travels, and his subject is filled with interesting incidents and funny tales. He will gain a host of friends.

CANADA'S CONTRIBUTION TO THE BRITISH EMPIRE

Showing Mobilization Scenes throughout the Dominion and at Valcartier Camp.

Tuesday Military Night

DOMINION MILITARY PICTURES AT EMPRESS.

"Canada's contribution to the British Empire," the much heralded feature production, depicting mobilization scenes on all parts of the Dominion and the equipment scenes at Valcartier will be shown tonight for the first time here at the Empress theatre. This is made in this paper a week or ten days ago, and it carries with it an importance that is far, far greater than to furnish only entertainment. It is a permanent remembrance of the noble young sons of Canada who answered to the call of the mother country in her hour of need, some of whom, though it be hard to say, may never return. It is a lesson in patriotism with a vigor and more effective appeal than any other means could convey, and a lasting tribute to the loyalty of the people of Canada.

Necessarily a great deal of local interest also must come from this picture for many of the officers and men of the first overseas contingent are Edmonton sons. Splendid photography is said to prevail throughout the entire five reels and much opportunity is given to distinguish individuals during the various maneuvers.

The pictures will be shown for two days only, today and tomorrow, at the Empress theatre.

The management will charge only the usual price of admission so as to enable people to avail themselves of the chance to see it.

Appropriate pipe organ music will be added during its projection on the screen.

EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

If feverish, bilious, constipated, give fruit laxative at once.

Don't scold your fretful, feverish child. See if tongue is coated; this is a sure sign his little stomach, liver and bowels are clogged with sour waste. When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

Production tells a most beautiful and appealing tale of the tender sympathies of mankind—that is a mother's love for her son. These three reels make a simple story, here are none that are more beautiful and there are none that may do all of us more good. A picked cast of experienced motion picture stars, with Ben F. Wilson in one of the leading roles, was selected by the producers to make of it as artistic a presentation of the story as the splendid theme was worthy of.

The war news is pictured by one of the most recent and extensive of the current events pictorial reviews. It is a war special and some of the headlines shown are the German army entering Brussels, being some of the tens of thousands of thousands of German soldiers and their war machines passing through the streets of the Belgian capital. The pictures were taken close up and one can clearly distinguish the features of the Germans, and the details of their equipment. How British soldiers, Belgian officers and men eating at the same soup wagons and eating the same course fare, are among some of the other scenes.

Tonight ladies, accompanied by persons purchasing regular tickets are admitted for ten cents, this being "Ladies' night," at the Bijou.

The Gay World

Members of the Ladies Aid society, of the Presbyterian church, and their friends will be entertained at the home of Mrs. Andrew R. McLennan, 282 Lorne street, on Wednesday, November 11, from 2 to 6 o'clock.

Mrs. B. M. Smith and her daughter, Mrs. W. B. Cassels, will receive for the first time since coming to Edmonton, on Tuesday, November 10, from 4 to 6 o'clock, at 616 Lorne street and after that on the first Tuesday of each month.

The ladies' auxiliary of the International Typographical union, No. 2624, will give an afternoon tea at the home of Mrs. N. Cropper, Butler street, on Thursday afternoon, from 2 to 5 o'clock.

P. J. Johnson, 545 Fifth avenue northwest, will not be at home on the second Tuesday of this month.

A most interesting program has been prepared for the entertainment to be given in the separate school hall at 515 1/2 St. (Monday) evening under the auspices of the Catholic Women's league, the proceeds of which will be used to provide public aid for the poor of the city. A silver collection will be taken. All are invited.

A sale of fancy work, Christmas gifts and home cooking, under the auspices of the W. C. T. U. of St. Peter's church (Anglican) will be held, 1024 1/2 14th street, on the afternoon and evening of Thursday, November 12.

On Wednesday, November 11, at 2:30 p. m., all women interested in the work of the Edmonton Women's industrial association, whether members or not, are asked to be present at the Girls club room of the Y. M. C. A. for the purpose of cutting out and starting to make garments for the Women's exchange.

On Monday, November 9, at 2:30 p. m., and by working together for the afternoon, many articles may be taken home and finished in time for the opening of the exchange on Saturday, November 14. All who come are asked to bring with them a list of terms they think would be useful in making children's garments, work aprons, etc. All public opinion will be asked, if possible, to save the above afternoon for the industrial association, and thus help to boost a good cause which is only in its infancy.

WEDDINGS

A wedding took place in Edmonton, Wednesday, November 4, at 2 P. M., of Miss Dorothy M. Fallon, formerly of Montreal, to Mr. J. L. Fallon, of Toronto and Miss Dorothy M. Fallon, formerly of Montreal, to Mr. J. L. Fallon, of Toronto and Miss Dorothy M. Fallon, formerly of Montreal, to Mr. J. L. Fallon, of Toronto.

The bride looked exceedingly well, clad in pink silk crepe de chine with white satin and shadow lace, trimmed with bouquet of white roses, lilies of the valley and maiden hair fern. The bridesmaid, Miss Muriel Fallon, wore pink silk crepe de chine, trimmed with white satin and shadow lace, and carried a bouquet of pink roses and maiden hair fern. The groom's man was Mr. R. H. Brennan.

On the entrance of the bride party, the "bride chorus" from Lohengrin was played by Mr. A. Wenzel, pianist, who also conducted the ceremony with the Wedding March (Mendelssohn).

The groom's gift to the bride was a necklace of pearls and to the bridesmaid a gold brooch. The happy couple intend to reside in Edmonton for the present. Among the numerous guests were Mr. and Mrs. Squires, Mr. and Mrs. Wenzel, Mr. and Mrs. Hunter, Mr. and Mrs. Mahood, Mr. McDevitt, Mr. Crawford, Miss Fraser, Miss Campbell, Miss Maxwell, Miss Robertson, Miss Margaret Elmer, Mr. Elmer, Mr. P. Wilson, Mr. L. C. Latterfield, Mr. Berk, Mr. Dudois and Mrs. Haycraft.

(Montreal and Toronto papers please copy.)

WOMEN'S MUSICAL CLUB HOLDS OPENING CONCERT

The opening concert of the Women's musical club of Edmonton which attracted a big attendance in the lecture room of the First Presbyterian church on Saturday afternoon.

The program was a most interesting one, and the attendance of the high attainments of the two artists, taking part and the artistic nature of the program. The occasion was an "open" day and the attendance of the general public was a decided tribute to the high esteem in which the givers of the recital, Mrs. J. B. Ferris and Mortimer Johnson, are held.

The program was opened by a Beethoven number for violin and piano, Sonata, opus 48, and it was executed with a finish worthy the best musical traditions. Mrs. Ferris, at the piano, giving undoubted evidence of the fact that she has equal claims in Canada.

In one of Grieg's ballads and in Schumann's "Carnival" she showed herself a consummate technician, while her interpretation was no less pronounced. A decidedly clever composition by a member of the club, Mrs. H. E. Howard, "La Coquette" was played in a perfectly delightful manner. It contains some exceedingly graceful passages and the loud applause at its conclusion was no less for the player than for the composer.

It was generally noted that the applause was of much more enthusiastic nature than is usually heard at the club and in one instance was so persistent that Mrs. Ferris was compelled to give an encore—Chopin's study in G minor. She was also the recipient of a bouquet of roses.

Mortimer Johnson is too seldom heard in Edmonton for he is a violinist of undoubted talent. His best effort was perhaps in the Beethoven selection, "Romance in G minor" though in the concert number he was heard to great advantage.

The program was arranged by Mrs. Broad and Mrs. J. B. Ferris and they have set a very high standard for the season which the present recital inaugurated.

Wins Automobile Race Phoenix, Ariz., Nov. 8.—Hugh R. Miller, of Phoenix, won the El Paso-to-Phoenix automobile race today. Geo. T. Hutchins was second.

SPORTS

SPORTS

VARSITY WINS FIRST GAME FOR INTER-CITY RUGBY CHAMPIONSHIP

Students Defeat Calgary Tigers 3 to 0, and Had the Visitors on the Defensive at All Times—Should Have No Trouble in Winning at Calgary—Snow Covered Field Prevents Sensational Play—Varsity Had Ball Over Line in Third Period But Lost It.

Scoring a single point in each of the first three quarters, and these being the only scores of the game, the Edmonton Varsity rugby squad, cheered by 1,200 loyal supporters of the green and gold, cast their first victory over the Calgary Tigers on Saturday, and with this slim three point margin will on Saturday, November 14.

Owing to the slippery nature of the playing field, caused by three inches of snow, sensational play of the kind that was out of the question and the closeness of the small score 3 to 0 is scarcely a fair indication of the play, as the students had the visitors on the defensive more than two-thirds of the play and for a "steal" on the part of Captain Hickey, of the Tigers, who were being credited with a tough play in the closing moments of the third quarter when Varsity worked the ball up to and just over the Calgary line, held it beneath the struggling heap of a dozen or more players, after the last down, Hickey stole the ball, held it on the line and the students were not given credit for the play, although they followed it up immediately with a kick to the dead line for the third and last point of the game.

Inability to boot the ball, might be given as one cause of the Tigers' defeat, as on but very few occasions did their kicking efforts result in very noticeable gains, the ball more often being kicked too low or, on account of its slowness, being fumbled.

This weakness was admitted by some of the Calgary players after the game and Captain Hickey took pleasure after the game in relating to his team mates how although it was a shame to admit it, he had made the clever "steal" in the third quarter when Varsity in reality might have been credited with the extra points. "It was the happiest moment of my life," Hickey was heard to remark.

Seldom, if ever, did the Tigers come near scoring, although in the last quarter their superior weight continued to push their line into Varsity grounds. The game was not altogether free from roughness and the Tigers were the chief offenders and were penalized more than once. Barring minor injuries, none of the players were seriously hurt although blood stains and limping players were most conspicuous.

The heading of Parker, the deadly tackling of McDonald and end runs by Parsons and Perron were features of the winning team while Ross, Woods, Watt, Wark and Hickey did effective work for the Tigers. The visitors were the more effective in the line back, by reason of their weight but Varsity continually made good gains by accurate kicking and their speed.

How the Points Scored
First quarter—Varsity, kick to dead line, 3 points.
Second quarter—Varsity, rouse, McQuinn (McDonald) 1.
Third quarter—Varsity, kick to dead line, 3 points.
Fourth quarter—No scoring.
Final score, 3-0 for Varsity.

The teams lined up as follows:

Tigers	Flying Wing	James
Hickey	Wark	Parker
McQuinn	Half backs	Perron
Watt	Overman	Wilson
Ross	Quarter back	Parsons
Watt	Woods	Hilly
Harmon	Scrimmage	Bel
O'Dell	Inside wings	Treble
Priestly	Outside wings	Finch
Whittaker	Middle wings	Parr (Duck)
Finch	Outside wings	Ayles
McDonald	Fullback	Smith
Referee	"Bob" Pearson; "Empire," Jerry Hardisty.	

LAW STUDENTS FORM MOGGALLS

In First Basketball Game of Season—Pike Broke His Collar Bone.

The first real basketball game of the season was staged at the Y.M.C.A. on Saturday afternoon when those two old warrior teams, the Law Students and the McQuinn (McDonald) 1, met in a half hour's battle. To say that the game was a tame affair would be false for these two teams, rivals of older years, have been after each other's scalps for more than one season and as a preliminary to the regular games that will soon be begun, Saturday's contest was good basketball although the score was rather one-sided, 35 to 16 for the would-be lawyers.

The half-time score was 10 to 5 for the students and the McQuinn's were held down during the second period. To say that the Law Students have a likely looking team for the coming winter schedule, is putting it mildly. They have as well balanced an aggregation as one would care to find on any team of ball players. Owing to lack of team practice the McQuinn's were playing under a severe handicap, whereas the students, having been working together for some weeks past and have developed some nice team work.

An unfortunate incident of the game was an accident which occurred to player Pike of the McQuinn's forward line, when, as the result of a strenuous scramble on the floor after the ball, he had his collar bone broken, an accident which will keep him out of the game for some weeks.

The teams lined up as follows:

Law Students—Forwards, Van Allen and Menzies; center, Wilson; defences, Scott and Blue, McDonalds; forwards, Pike and Davidson; center, Bressie; defence, Ross and McBride.

FORMER CUB STAR, KING COLE.

EASTERN RUGBY: SATURDAY GAMES

Toronto Teams Are Winners Over Ottawa and Hamilton—Harvard Wins.

Yale Beat Brown
New Haven, Conn., Nov. 8.—Yale played below form and the eleven was obliged to extend itself to the limit to defeat Brown 14 to 6. With all the regular Yale backs except Alworth watching the Harvard Princeton game at Cambridge, the second string backs played loosely and made costly fumbles when within the scoring zone.

Toronto Argos Win
Ottawa, Nov. 8.—Toronto Argonauts made an inter-provincial record for the season and assisted themselves of a tie with the Tigers, Saturday afternoon in the last game in the Big Four. They overcame Ottawa's 47 to 4, scoring eight touchdowns, four of which were converted, and outplayed the local club at every turn. Play grew rough towards the finish and referee Roberts had a busy time.

Tigers Beat M.A.A.
Montreal, Nov. 8.—Running up a lead of seven points on the home team in the opening quarter of Saturday's Big Four rugby fixture at the Westmount Grounds, the Hamilton Tigers held Montreal safe for the balance of the contest, and won 12 to 5, thus securing a walk-off for the inter-provincial championship between Argos and Tigers.

The match was a hard grind from beginning to end and while at times there was some good football played, there was much costly fumbling and weak kicking in evidence.

Varsity Beats McGill
Toronto, Nov. 8.—One of the most strenuous games seen in the stadium in years, McGill Saturday went down to defeat by the Varsity by the score of 12 to 7. The result of the game means a play off between the two teams for the championship of the intercollegiate union. McGill's points were made entirely in the first half, six of them being made from a touch which resulted from a fumble.

For the first quarter they had the edge but later were victims of the superior weight of the local backs. Carr and Sheehy were victims of the superior weight of the local backs. Carr and Sheehy contributed for Varsity stellar back division work. Lang did the kicking for McGill and interspersed good booting with several effective trick plays. McGill's touchdown in the opening quarter of the game, which Lang converted, was the result of a bad fumble by Lindsay and a diving recovery by Kennedy.

Princeton White-washed
Cambridge, Mass., Nov. 8.—Harvard crushed Princeton by a score of 20 to 0 in the annual game between the two universities here Saturday afternoon. Aside from the surprising weakness of the Princeton team, the contest was almost without feature. The Crimson completely outclassed the Tigers in every department of play. Opposed to Harvard, the New Jersey collegians had little offence or defensive strength which made the victory look of rolling up the biggest score a Harvard team has ever made against Princeton, an easy one.

Hamilton Club Outplayed
Hamilton, Nov. 8.—The Toronto completely outplayed the Hamilton Rowing club here, defeating them 23 to 6 in a rough, hard game. This ties up the senior O. R. F. U. race and makes a play-off unnecessary a week from Saturday, providing Toronto beat Ottawa 84 strokes in Ottawa next Saturday. Disappointed at their inability to beat Toronto by fair means, some of the Rowing club players resorted to questionable tactics and punches and scraps characterized a large portion of the play in the last quarter. Some of the stuff was so raw that spectators in the grandstand hissed the dirty players.

EDMONTON BOWLERS LOSE TO CALGARY TEAM BY 73 POINTS

Mitchell and Patrick From Southern City Win First Round of Games From Blouin and Miller—Return Game in Calgary Next Saturday—Patrick Made High Score of 242.

Owing to the non-arrival of the five-man bowling team from Calgary on Saturday as expected, a select two-man team from Calgary clashed with a nifty local team and were successful in defeating the locals by a very narrow margin on points. Representing Calgary were Messrs. Patrick and Mitchell and for Edmonton Messrs. Blouin and Miller. The southerners won by a margin of 73 pins on a total of ten games. A return match of ten games will be played in Calgary next Saturday.

The following are the scores of Saturday's games, played on the Olympic alleys:

Miller	190	189	214	168	163	176	155	153	145	181	1734
Blouin	162	178	188	185	200	170	178	224	220	192	1807
Patrick	352	367	402	353	363	346	333	377	365	373	3631
Mitchell	223	182	145	176	162	242	195	181	154	199	1859
Mitchell	215	198	139	211	177	145	203	167	219	174	1845
Averages	438	380	284	387	339	387	398	348	373	370	3704

Splits—Miller, 12; Patrick, 11; Mitchell, 11; Blouin, 7. Errors—Blouin, 4; Patrick, 5; Mitchell, 9; Miller, 11. Strikes—Blouin, 36; Blouin, 36; Patrick, 35; Miller, 11. Spares—Blouin, 57; Miller, 50; Patrick, 48; Mitchell 43. High individual score—Patrick, 242.

ALBERTA AMATEUR UNION HOLDS IMPORTANT MEETING SATURDAY

Edmonton Lacrosse Club Still Minus its Guarantee From Calgary Outfit—Archib Bishop Loses His Card—Central Alberta Baseball League Comes Under Ban—J. W. Ward Will Represent Province at Dominion Meeting.

An important meeting of the executive of the Alberta Amateur Union was held in the Y. M. C. A. on Saturday afternoon. An important matter taken up was the lacrosse trouble that arose following the visit of the Edmonton team to Calgary and failed to secure the expense money promised them by one McAllister. Communications which have passed from the heads of one team to the other were read and the committee finally decided that the responsibility rests with the above named McAllister, to whom the union will look for settlement and in the meantime Berg M. McAllister from participation in amateur sport in the province until the matter is settled. Messrs. Pearson and Halliwell, of Calgary, will deal with the matter in that city.

Following certain charges made by Mr. Ferrier, of Nelson, B. C., the amateur card of Archie Bishop, of the Calgary Chinos, will be withheld pending an investigation and Bishop will be given an opportunity to explain and make defence of the action of the union in cancelling his card.

J. W. Ward, former secretary of the Edmonton Y. M. C. A. and now located at Hamilton, Ont., will represent the Alberta branch at the annual meeting of the C. A. A. U. at Ottawa, on December 5.

Those players having been with the Central Alberta Baseball league during the past season, have come under the ban of the league and are not eligible to receive amateur cards.

It was decided to have the constitution and bylaws of the A. A. A. U. brought up to date and printed, and references made to the fact that Dr. Mason and D. L. Darroch were among the pioneers of the amateur athletic movement in the province of Alberta.

The following new records made at the provincial meet at Medicine Hat, last July, were duly ratified by the meeting:

120 yards hurdles, H. H. Reuse, 19 seconds.
Standing high jump—R. S. Sheppard, five feet, 2 1/2 inches.
Hop, step and jump—R. S. Sheppard, 44 feet, 5 3/4 inches.
Running high jump—H. Reuse, 5 feet, 5 1/4 inches.
Half mile—H. Reuse, 3:02 1/2.
Running broad jump—R. Halliburton, 11:05 1/4.

NO INTER-CITY HOCKEY THIS YEAR—DECIDES ANNUAL MEETING

Introduction of Junior Division Meets With Approval—President "Bob" Pearson and Secretary Mann re-elected—League well off financially—Will Abolish Body-checking to the Boards.

At the annual meeting of the Alberta Amateur Hockey association, held in the Y. M. C. A. on Saturday, it was decided that the inter-city series will be abolished for this season at least as present conditions could not warrant its being carried on. There will, however, be senior groups played in each of the two cities, Calgary and Edmonton, and the winners to play off at the end of the season in home and home games for the championship.

Although the number of senior teams in the province has fallen from last year, there is an increase in the introduction of a junior section in the province, this latter which is a move in the right direction and will encourage young players to learn the game and insure players for the intermediate and senior teams in the years to come.

The reports of President and Secretary Mann were heard and it was shown that the league has a surplus of \$84.25 from last season. Heartly votes of thanks were tendered the above officials for their untiring efforts of past months, and each of these gentlemen were re-elected to their office for another year.

On motion of Anthony McKinley, of the Calgary Chinos, it was decided to instruct officials to eliminate body-checking into the boards. In this the Alberta association is following the course taken by the Pacific coast league in their new ruling. The president and secretary were named as a committee to draw up amendments to the constitution, defining the distinction between senior, intermediate and junior divisions. A junior is defined

as a player whose 20th birthday has not occurred until after January 1 of the current season.

The following list of officers was elected:

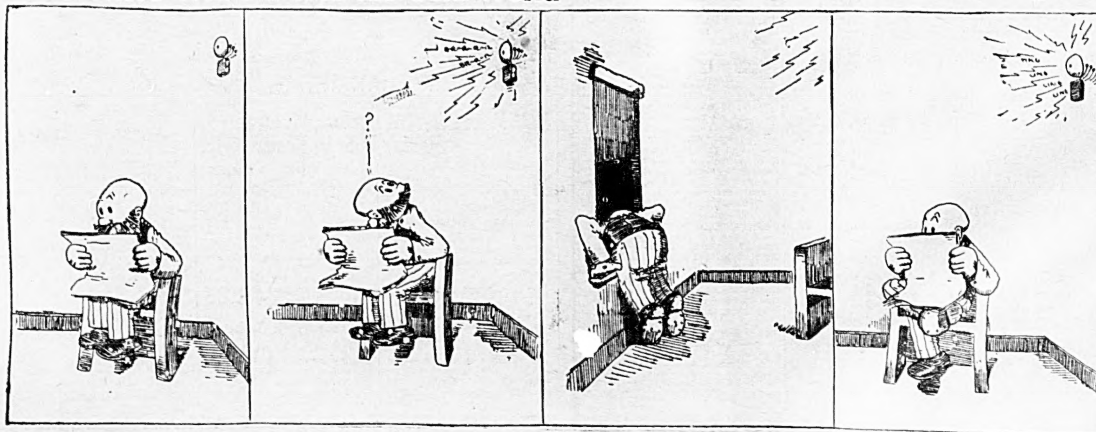

Hon. president—D. E. Black, Calgary.
Hon. vice-president—M. R. Jennings, Edmonton.
President—Bec. R. Pearson, Calgary.

First vice-president—Roy Chow, Edmonton.
Second vice-president—N. P. McLean, Killeen.
Secretary-treasurer—James Mann, Red Deer.

Among Those Present.
The following delegates were present at the meeting: Senior—Walter Campbell, Eskimos; Bruce Boreham, Calgary; Monarchs; Wm. Chubb, University of Alberta; A. McHugh, Calgary Chinos. Intermediate—H. G. Pearce, Edmonton; Alister; Barney Stanley, Edmonton; Buehler; S. Stephen, Eureka; E. Garrison, Edmonton; Pennington; executive officers, R. Pearson, Le Chien, Walter Ross, Dean White, W. M. Edwards, Jas Mann, A. McKinley.

Winning Rugby Games
Winnipeg, Nov. 8.—The Bowing Club Rugby team added two more championships to the senior by winning the intermediate and junior series of the Manitoba union on Saturday. In the intermediate the carleton defeated the Tigers and in the junior disposed off the St. John.

DISARMAMENT IS STRONGEST FORCE TO PREVENT WAR

Rev. C. F. Porter at People's Forum Speaks on Question of Last War.

Declaring that the maxim: "To safeguard peace prepare for war," had been forced in him, that disarmament would be the greatest force to prevent war, he should stop infusing boys with military spirit and training them to fight. Rev. C. F. Porter, after addressing the People's Forum in the Garland theater last night, on "The Last War," declared that he was a pacifist. He stated that in the period between 1900 and 1901 there had been over 8,000 international peace treaties made, supposedly perpetual, but the average life of which had been only two years. The spirit of nationalism over-balanced the trend toward world peace, he thought, that it would be several generations yet before they could look for ideal conditions.

He believed, however, that the forces of labor would make the most strenuous efforts to see that this would be the last war, as those of the working class were the worst sufferers by it. Among others who discussed the situation from different angles were S. H. Clouston, who declared that Russia would be the strongest factor in delaying a return to peace; Dr. H. Darling, who was of the opinion that there was no use in looking for improvement until men refused to let an autocrat like Emperor Wilhelm throw them against each other to serve his ambitions; C. Stevens, W. H. Turner and others.

May Send Troops to Africa. London, Nov. 8.—The Portuguese cabinet met Saturday to consider the proposed to dispatch reinforcements of infantry, cavalry, and artillery to Angola, the Portuguese possession in West Africa. This statement is made in a dispatch from the London correspondent of Reuters Telegram company.

Children Cry For Fletcher's CASTORIA

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur it Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandiose, their treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell a ready-to-use product called "Wyn's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyn's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also improves the hair which is so attractive; besides, prevents dandruff, itching scalp and falling hair.

CANADIAN PACIFIC TO PARTICIPATE IN 1915 WORLD FAIR

Ground for Company's Pavilion at Great Exposition is Auspiciously Broken.

Ground for the Canadian Pacific railway pavilion at the Panama-Pacific exposition grounds was auspiciously broken yesterday in the presence of exhibition officials and representatives of American railroads and traffic companies, and department of natural resources, Canadian Pacific railway. Mrs. Jackson, wife of general agent C. W. Jackson, of the railway's passenger department, as San Francisco, drove the first spike and the ceremony included the raising of the Canadian flag over the center of the site and at the four corners. Rhyne Henderson, chief of the Canadian Pacific, acted as chairman and formally presented Francis Swales, architect representing the Canadian Pacific with the deed of space, extending hearty congratulations and expressing the satisfaction of the administration at the Canadian company's decision to participate in the exposition. General Agent Jackson responded happily on behalf of the company, thanking the administration for courtesies received and expressing the good will of the Canadian Pacific. By rushing work at all possible speed, he hoped the building would be ready for occupation prior to the official opening of the exposition.

EDMONTON IN BRIEF

Court Northern Light, Canadian Order of Foresters, is holding the regular meeting in the L.O.O.F. hall, corner of Broadway and 10th street, at 8 p.m. Every member is requested to turn out to this meeting. This edge is holding a whist drive at the end of the month.

The Edmonton Humane society will meet in the office of Inspector Dow in the Civic block on Wednesday afternoon at 3 o'clock.

Despite the change in policy regarding the war pictures at antiques theater last week, the Ford Sterling comedies, one of which struck such a big hit at last week show, will not be run this week. In its place will be a war picture—this time a real, authentic war picture, showing the actual fighting which took place in and around Antwerp. It is entitled the "Siege of Antwerp" and depicts graphically the entire affair and the incidents leading up to the siege. It is a real picture, the first war picture which has been run in Edmonton and will give to Edmontonians a glimpse of what war really is.

There will be a turkey shoot at Fort Saskatchewan on Tuesday and Thursday of this week.

On Saturday evening at the Selkirk hotel the Boston club banqueted Senator Lougheed of Calgary, afterwards adjourning to the club's rooms.

ITALIAN SOCIETY WILL ASSIST OWN UNEMPLOYED

Sunday afternoon at 2:30 at the headquarters of the society, 1629 9th st. a well attended meeting was held by the members of the Italian society of Edmonton.

The important question of finding suitable work for the many Italians out of employment was the subject of much discussion. A list of Italians married and with children was made and will be presented to the city authorities hoping to secure work for them. The list of the words that is going forward.

EDMONTON GIVES GENEROUSLY TO BELGIUM RELIEF

Substantial Contributions by Prominent Citizens Made Saturday.

MILLING COMPANIES GIVE TWENTY-FIVE BAGS FLOUR

Cash Donations From Various Sources Will Mount to Timely Sum.

With wide open hearts and generous giving, the people of Edmonton met and responded to the call on Saturday for funds to aid in the relief of the Belgian sufferers. Large dogs and small ponies were conspicuous on all the travelled streets, and the people and hung on either side of the attractive animals, hung a huge box, into which coins of various denominations were dropped by passers-by. The pines and dogs, led by some happy and hard working youngsters, could not help but attract a great deal of attention and some very substantial contributions were received during the day.

Some recent cash contributions include P. McNaughton, \$100; John A. McDougall, \$100; Franco-Belgian Investment company, \$100; Friends, \$100. The exact amount of the money collected from various sources on Saturday will be determined on Monday when the cash collections will be counted at one of the banks after hours.

In addition to the cash donations, the Alberta Milling company and the Campbell and McDougall Milling company have each contributed 25 bags of flour to the fund and a substantial cash collection was acknowledged. \$157, makes a total of \$1,338.18 for the week. Saturday's contributions were made up as follows:

P. McNaughton	\$100.00
W. F. Jenkins	12.00
H. Mansford	1.00
James C. McDougall	25.00
J. C. McDougall	25.00
Richd. Marks	10.00
Arthur C. Biggs	20.00
Wm. H. Davies	5.00
Lampson and Co.	25.00
25 bags flour	75.00
J. A. Haller, 10 bags	30.00
4 bags	12.00
Street collections, Saturday	\$240.00
12 dogs	1.00
4 ponies	12.72
Empire Theatre Auction:	
Sale and collection by	\$121.90
"Peg O' My Heart"	\$128.23
Meiers, Davies and Moyle have offered a chest of 400 aged cigars	\$15.00

BUSINESS MEN'S LUNCH AND AFTERNOON TEA

The ladies of St. Mary's church, Highgate, are preparing a very busy day on Wednesday, November 11, at the St. Mary's schoolroom. Just south of Jasper street, from 11 to 1:30 p.m. There will be a business men's lunch from 11:30 until 12 o'clock, afternoon tea from 1 o'clock until 4 o'clock, and a sale of work going on all the time.

It is hoped that Edmonton men who lunch in town, will give their hearty support to this undertaking; tickets for lunch are 20 cents each, and a splendid menu is being prepared.

Was Covered With Boils.

Could Not Get Rid of Them Until She Used

BURDOCK BLOOD BITTERS.

When the blood becomes impure the first symptoms which manifest themselves are a breaking out of the various forms of skin trouble such as boils, pimples, abscesses, ulcers, etc., and the only treatment you can use is some sort of a good blood cleansing remedy which will put the blood into a perfect condition and thus eliminate all the different poisons from the system which cause these different eruptions to occur.

The best blood cleansing remedy on the market today is Burdock Blood Bitters. All we ask you to try it and be convinced. Thousands of women used it during the past forty years, and have nothing but praise for its curative powers.

Mrs. John Fitzgerald, Phantogen, Ont., writes: "I am one woman who cannot speak too highly of Burdock Blood Bitters. I was covered with boils and could not get rid of them. I was advised by a friend to try B.B.B. which I did and I can truly say it has completely cured me. I have never had a sign of a boil since."

See that our name appears on both the label and wrapper as there are many imitations placed on the market which are sold to the "dear old people." Burdock Blood Bitters is manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

JOHNSTONE WALKER'S DAILY STORE NEWS
